END AS IS

ATT: Victor Karen

Dear Director Coyle:

The enclosed materials are hereby submitted in response to the request for qualifications for nonprofit participation in the future development of Sargents Wharf. The NEWCDC hopes to promote and preserve affordable housing opportunities within the North End/Waterfront community.

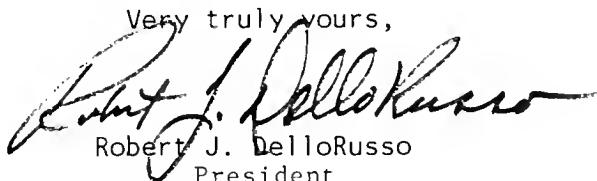

The NEWCDC has uniquely molded a variety of local organizations and groups with a broad cross section of community residents. These diverse groups have joined together with a singular purpose - preservation of an attractive, vibrant neighborhood of the City of Boston which is enjoyed by residents and visitors alike.

The Sargents Wharf site presents the most significant opportunity for the NEWCDC to achieve the reality of its ambitious goals for affordable housing for residents of our community, people who have been the victims of a housing market which has skyrocketed in cost and forced displacement from neighborhoods like the North End after generations of family residency.

The development of Sargents Wharf with its significant contribution to the creation of affordable housing units is critical to the process of inclusion of the neighborhoods of the city into the development of the harbor and the future of the City. The harbor is one of the greatest assets of the City which should be shared and enjoyed by all of its residents. The abutting communities should benefit from the development around the harbor and become part of its fabric.

The enclosed materials will more fully explain the goals and objectives of the NEWCDC as well as the proposed role which it desires to undertake in this project. We anxiously look forward to participating in this project.

Very truly yours,

Robert J. DelloRusso
President

I. DEVELOPMENT OBJECTIVES FOR & PROPOSED ROLE IN AFFORDABLE HOUSING DEVELOPMENT ON SARGENT'S WHARF

The following sections describe the North End/Waterfront Community Development Corporation's objectives for the affordable housing to be constructed on Sargent's Wharf, and its preferred development/ownership and management structure for this affordable housing.

A. Objectives for Affordable Housing Development

There is to be a minimum of 100 units of affordable housing constructed on the site, to be priced at affordable levels for low, moderate, and upper moderate-income households as defined in the Sargents Wharf Request for Proposals.

A limited equity housing cooperative is the preferred affordable housing type for the site. This housing type will best accomplish the short-term and long-term objectives of the NE/W CDC to provide housing which allows the build-up of equity over time and ensures a supply of affordable housing over time and also can provide housing opportunities for households who can not afford to own their own home, even with the assistance of a below-market loan.

The North End/Waterfront CDC is particularly concerned that affordable housing to be developed on the waterfront contain the following features:

1.) Priority in Initial & Ongoing Occupancy for North End Residents

Increasingly, North End residents and young people who have grown up in the North End are being displaced from their neighborhood due to the increasing scarcity of housing and the rising costs of both rental and ownership housing.

Because of this, the North End/Waterfront CDC wishes to ensure that priority in occupancy of affordable units developed on the waterfront will be given to North End residents, and that priority will given to North End residents, children of North End residents, and households displaced from the North End on an ongoing basis as these affordable units become vacant. It is understood that affirmative marketing requirements will be carried out and upheld.

Accordingly, we would like to be involved in the creation and approval of an initial and ongoing resident selection plan for affordable housing units to be developed on the waterfront, and a role in the review and approval of the marketing and advertising plan and implementation of the plan. We wish to monitor the resident selection process for conformance with the agreed-upon

resident selection and affirmative marketing plans, to monitor the development and maintenance of a waiting list for vacancies in the affordable unit categories, and to work with the management agent and the resident cooperative on an ongoing basis in the selection of future residents according to the selection procedure and in the monitoring of the waiting list.

2) Unit Mix Determination & Unit Price Schedule

We wish to encourage a mix of residents of a variety of age groups, family sizes, and income levels in housing to be developed on the waterfront. This is important in order to preserve and maintain the community and neighborhood character of the North End, and to foster an extension of the waterfront residential area with that of the North End.

Accordingly, we propose the following mix of units for the affordable housing:

<u>No. of Bedrooms</u>	<u>% of Affordable Units Constructed</u>
1 Br	Not more than 25 %
3 or more Brs	Not less than 35 %
with the remainder as 2 Br units.	

<u>Household Income Mix</u>	<u>% of Affordable Units Designated</u>
HH with incomes at/below 50 % of median income	33 %
HH with incomes between 50-80% of median	33 %
HH with incomes between 80-110% of median	33 %

Monthly housing payments for these households should be no greater than 30 per cent of gross monthly income.

The North End/Waterfront CDC wishes a role in the development, review and approval of the unit mix and unit pricing schedule, as well as in the determination of sharehold payments.

3) Unit Size & Location

The location of affordably-priced units throughout the building(s) should be dispersed, rather than congregated in one area to promote interaction among the building's residents without regard to level of income or price of units. Quality of construction, unit location and size should not vary according to projected income level of occupants. Accordingly, we wish to be involved in the review and approval of the unit location plan which identifies which units will be designated for low, moderate, or market level occupancy.

4) Mechanism for long-term affordability of units

The North End CDC wishes to promote opportunities for affordable housing residents to build up equity over time, yet keep unit prices at levels which will enable future lower and moderate income households to obtain these units over time. Accordingly, we would like a role in the review and approval of a limited equity formula and resale restriction mechanisms which will accomplish both objectives. The affordable housing development plan should contain provisions for continuance of affordability beyond the termination periods for financing and funding programs and any refinancing or sale of the development.

5) Overall Building & Unit Design

The North End/Waterfront CDC wishes involvement in the review and approval of building and unit design of affordable housing on the waterfront to ensure the following:

a) Building design compatibility with the surrounding neighborhood and continuity with the rest of the North End community;

b) Building design which fosters interior and exterior interaction among residents and building users;

c) Unit design which does not vary considerably in unit size, design, location, and quality among designated lower, moderate, and market-priced units;

d) Site plan which allows neighborhood access to the water and views to the water.

6) Initial & Ongoing Housing Management

We wish to encourage the use of a management company who offers successful experience in working with limited equity housing cooperatives, is responsive and open to the needs of residents, treats residents with respect and fairness regardless of income level, has a track record of successful housing management and quality maintenance and is willing to work with a residents' association or cooperative board to increase resident knowledge

and skills in management affairs and decisions. Accordingly, the North End/Waterfront CDC wishes involvement in the interviewing and selection of a management agent for the affordable housing development.

In order to give the eventual resident cooperative a voice in determining the management of their building, it is proposed that a management agent be selected for the first two years of the building's occupancy, and that the resident cooperative's board of directors be given the authority to either rehire the initial management company at that time, or select a different management agent of their choice.

7) Legal & Organizing Documents for Housing Cooperative

To ensure that the cooperative is organized and set up with the best interests of the residents in mind and follows proven and established cooperative procedures, the North End/Waterfront CDC desires involvement in the review and approval of the cooperative organizing documents, including, but not limited to, the following:

- articles of organization
- by-laws
- occupancy agreement
- cooperative rules & regulations
- subscription agreement
- ground lease (if applicable)

8) Training for Residents & Cooperative's Board of Directors

The North End/Waterfront CDC wishes to ensure that households who are selected to become resident members of the housing cooperative clearly understand their roles and responsibilities as residents and members, the organizational, legal, and financial structure of the cooperative, the day-to-day operations of the cooperative and the responsible parties. Training should also be provided to the initial Board of Directors of the cooperative in their roles and responsibilities. Funds for this training should be included in the development pro forma for the cooperative. We wish to review the development pro forma to ensure adequate provision is being made for this training, and want to be involved in the review and approval of a training plan and in the selection of a competent and experienced organization to conduct the training.

9) Transfer of Ownership to the Resident Cooperative

The North End /Waterfront CDC wants to ensure that a clear and agreed-upon procedure and timetable is in place for transfer of ownership of the building from the development entity to the resident cooperative. This transfer should take place within 2 years of the date of 85 per cent building occupancy, or at a time to be mutually agreed upon by the NE/W CDC, the private developer, and the resident board of the cooperative. Such a time should occur when the resident board (and other cooperative members have been properly trained as to their roles and responsibilities as cooperative members, and the building's financial situation has stabilized. We would like to be involved in the review and approval of the ownership transfer process from the development entity to the cooperative.

10) Provisions for Resale & Refinancing of Resident Cooperative

To ensure long-term affordability of the housing units, continuation of resident control and ownership at the termination of subsidy programs, financing terms, and at expiration of tax benefits, a plan should be developed which includes provisions for the resident cooperative to repurchase and refinance the property for continuation as a mixed-income resident cooperative. This plan should include such mechanisms as an option to purchase for the cooperative at the expiration of the tax benefits, a right of first refusal in the event of a third party offer, and structuring of the residuals and financing so as to enable the cooperative to use these to finance the repurchase. A method for calculating the repurchase price should be clearly spelled out initially and should reflect the property's continuing use as low and moderate income housing. The NE/W CDC desires involvement in the review and approval of this plan.

B. Proposed Role of the NE/W CDC in Development & Ownership Structure of the Affordable Housing Component

1. Initial Development Entity

We are proposing to participate in the development of the affordable housing component in a partnership with a private developer to be selected for the site. The NE/W CDC would become a co-general partner with designated roles, responsibilities, and primary areas of participation as outlined in the preceding Section A. The private developer would become the managing general partner and would have primary responsibility for procuring financing commitments, carrying out the construction and development process, and setting up the housing cooperative according to the objectives outlined in the preceding section. The roles, responsibilities of each partner should be clearly and specifically outlined in a partnership agreement. This agreement

should also outline a clear process and timetable for the transfer of ownership from the managing general partner to the resident cooperative. If a limited partnership is employed as a means to raise equity for development of the housing, the same objectives, terms and conditions should apply for the limited partnership agreement as described above, and specific provisions should be made for resale of the property to the cooperative at the expiration of the tax benefits, as proposed in Section A.10.

We propose that the partnership to be formed between a private developer and itself be structured as a partnership between the private developer as managing general partner and the NE/W CDC as co-general partner. The per cent participation of each partner, and the sharing of financial proceeds from the partnership should be negotiated between the two parties. Financial proceeds received by the NE/W CDC would be applied toward future community development efforts and an ongoing staffing capacity.

2. Ongoing Ownership of Affordable Housing

As described in the preceding Section A.9, we propose that the managing general partnership responsibility be transferred to the resident cooperative within two years following the achievement of 85 per cent occupancy or at a mutually agreed-upon time as described in Section A.10. The North End/Waterfront CDC desires a continued ownership role in the housing cooperative to ensure achievement of the following objectives:

- a) An equitable ongoing resident selection process;
- b) Proper and adequate property management;
- c) Equitable administration of cooperative rules and regulations;
- d) Proper training and education of cooperative residents re: roles and responsibilities;
- e) Approval of future sale or refinancing of the cooperative;
- f) Approval of major and significant decisions, such as major building alterations or policy decisions relating to the founding objectives of the cooperative as outlined in Section A above and/or the Mission Statement of the NE/W CDC (See Section III.A.2).

The NE/W CDC proposes the following alternatives for its ownership involvement of the cooperative property. These alternatives are listed in order of preference:

- a) NE/W CDC retains ownership of land; cooperative enters into a long-term ground lease with the NE/W CDC; and/or
- b) NE/W CDC maintains continuing partial ownership of property following transfer of managing general partner responsibility from private developer to the resident cooperative.

II. DEVELOPMENT OBJECTIVES FOR & PROPOSED ROLE IN THE OVERALL DEVELOPMENT OF SARGENTS WHARF

A. Objectives for Overall Development of Sargent's Wharf

The North End/Waterfront Community Development Corporation wants to ensure that the overall development of the site proceed with the best interests of the community in mind, and that benefits which occur as a result of the site's development - including financial benefits - be shared by the community.

To accomplish this, the NE/W CDC wishes to be involved as a general partner in the partnership entity which develops the entire site. While we expect to be more specifically involved in the affordable housing component, we would also like to make sure that the following overall development objectives are carried out in a way that benefits the community:

1) Selection of One Private Developer for Development of Entire Site

We believe it is in the best interests of the overall development that one private developer be selected to develop the entire site. To "platform" off the affordable housing component - or any other component - would result in additional complications, problems of coordination and assignment of responsibilities and costs which would not be in the best interests of the project. We believe that an overall development plan carried out by one development entity - with the involvement and input of the NE/WCDC as outlined in this proposal - will result in the highest quality and most efficiently-produced development of the site.

2) Mixture of Market-Priced Housing with Affordable Housing

Rather than setting apart the 100 affordable units from the market-priced units in separate buildings, we advocate a blend of market-priced units and affordable units in each building to be

constructed. This would avoid a potential "image problem". The Mass. Housing Finance Agency's experience of almost 20 years of building successful mixed-income housing is a testimony that people with varied income levels can live together harmoniously and that higher-priced market units can be successfully marketed in these developments. The North End/Waterfront community itself has experienced success in mixed-income buildings such as the Mercantile Building.

A recent study funded by EOCD's Challenge Grant program found that the presence of lower-income homeowners in mixed-income homeownership developments did not have a large effect on the marketability or price levels of the market units. We believe that a blend of the market units with the moderate and lower-priced units within each building to be constructed on the site may be in the long-term best interest of the development and the community.

3) Leasing & Management of On-site Non-Residential Space

The North End/Waterfront Community Development Corporation would like to be involved in the choice of tenants to lease the non-residential space on the site. In particular, we would like the following considerations made in selection of commercial tenants for this space:

- a) Marketing and selection priority for stores who can provide products and services for people who live in and around the development.
- b) Marketing and selection priority for stores whose products and price levels can serve customers with a variety of income levels.
- c) Marketing and selection priority for North End-based businesses.
- d) Selection of a variety of business tenants to avoid duplication of services and products both on the site and in the immediate neighborhood.
- e) A commercial rent structure which allows space to be rented at affordable rates to small businesses who can serve customers with a variety of income levels.

Examples of types of businesses desired include:

- a pharmacy
- food shopping
- hairdresser & barber shop(s)
- convenience store

Marketing, advertising, and leasing of the non-residential space

should be carried out by the managing general partner with the advice and input of the NE/W CDC as co-general partner, according to the objectives listed above. The non-residential space should be managed by a professional management company. When the resident board of the housing cooperative is ready to assume control of the building containing the cooperative, management and overseeing responsibilities of the commercial space in the building containing the cooperative should be transferred to the cooperative as well.

We propose that the net cash flow from rental of the commercial space in the building containing the cooperative be treated as follows:

Net cash flow from the commercial space rentals should go to the North End/Waterfront CDC until the resident cooperative assumes the managing general partnership of the building. At that point, net cash flow should go to the cooperative to be placed in a building reserve fund for major repairs or into a sharehold loan fund for low income sharehold purchasers.

4) Design and Construction Quality of Buildings

All buildings constructed on the site should be comparable in external design and construction quality.

5) On-site Parking

a) The same ratio of designated parking spaces per unit should apply to the affordable housing units as for the market-priced units.

b) Prices for affordable unit parking spaces should be set at affordable prices for low and moderate income residents. Arrangements that could provide parking at no cost for low/moderate income residents should be explored, such as free night parking, which would allow these spaces to be open for daily public parking at going rates.

c) The NE/W CDC proposes that a percentage of annual income from the parking facility be made available to the CDC to assist its ongoing operations as well as to provide a resource for future community development efforts in the North End/Waterfront target area.

6) Traffic & Access to the Site

Vehicle access to the site should occur through Eastern Avenue. Pedestrian access for residents, neighborhood residents, and the public should occur throughout the site.

7) Open Space and Overall Design

We wish to ensure that the design and site plan guidelines outlined in the developer's kit - particularly for open space and overall building design - are followed in the development of the site.

B. Proposed Role of the NE/W CDC in Overall Development of the Site

We propose that the North End/Waterfront Community Development Corporation participate as a co-general partner and the selected private developer participate as the managing general partner in the partnership which develops the entire site. Roles and responsibilities of the NE/W CDC would be to ensure that the development issues listed above are carried out in the best interests of the community. We wish to function as an advisory body to the private developer in the overall development of the site, and wish to send 1-2 representatives from the NE/W CDC to attend design review meetings at the BRA during the course of the project's development.

The North End/Waterfront Community Development Corporation would like to receive a portion of financial proceeds through participation in this development. These funds would be used for assisting its ongoing operations and also to provide capital for its future community development efforts, including the provision of more affordable housing opportunities for the community. These financial proceeds could come from sources such as the following:

- Percentage of parking facility income
- Sale/development of market-priced housing
- Commercial space rental income
- Syndication proceeds
- Development fees

We are open to negotiation as to the percentage of these financial proceeds to be received, as well as the NE/W CDC's percent participation in the partnership(s) which develop the affordable housing component and the entire site. The anticipated start-up capital needs and projected 3-year operations costs for the NE/W CDC are identified in Section III.D.

III. DESCRIPTION OF THE NORTH END/WATERFRONT COMMUNITY DEVELOPMENT CORPORATION

The following Section describes the community goals and objectives of the NE/W CDC, its composition, structure, community involvement and support. Also included in this Section are our 10-year development plan for the North End/Waterfront community and our projected operating expenses for our first three years of operation.

B. Composition and Structure of the North End/Waterfront
Community Development Corporation

1) Summary Description of NE/W CDC's Organizational Structure

The NE/W CDC has established community support for its mission by uniting the most active and representative of community organizations for the common purpose of achieving the creation and preservation of affordable housing with the community.

The establishment of a Board of Directors which would ensure as wide a cross section of the community as possible and the active involvement of as many individuals and groups as possible was achieved in the following structure:

- A) a Board of Directors consisting of 25 members;
- B) the majority of the Board (13 members) to be elected; with terms staggered over 3 years to allow for continuity;
- C) twelve members to be appointed; ten of which are appointed by community social service, nonprofit or civic organizations; the remaining two appointments are to be made by elected officials at the state and city level.

The organizations selected for permanent representation are:

- 1) North End/Waterfront Neighborhood Council
A 21 member body which is elected by the community to represent local interest with various city agencies.
- 2) North End Athletic Association
An organization of long standing which has promoted youth programs and athletic competition for community youth.
- 3) Senior Citizen Associations
Three associations of senior citizens presently exist within the community which work to address the needs of a large senior population.
- 4) Knights of Columbus, Ausonia Council #1513
A fraternal organization involved in various charitable and community activities.
- 5) North End/West End Service Center
Local community social service center affiliated with ABCD for the administration of a variety of city, state and federal benefit programs.

- 6) North End Union
Community based social service agency providing variety of programs for elderly and youth of the community as well as meeting areas and activity center.
- 7) Boston Waterfront Neighborhood Association
Civic organization with the broadest membership of residents and businesses involved in local waterfront community issues.
- 8) North End Civic League
An organization which has for many years been involved in civic issues affecting the quality of life in the neighborhood, most recently playing a major role in zoning changes to limit heights.
- 9) Feast Societies
A group of organizations which carry on the tradition of sponsoring summer festivals honoring patron saints of community residents who resettled in the North End /Waterfront during the last 100 years.
- 10) North End Community Health Center/North End Nursing Home
Organizations which provide health services, home care and residential nursing care within the community.

2) Description of Membership & Membership Drive

The general membership from which the majority of the Board of Directors will be elected has been achieved as a result of a membership drive which included advertising and news releases in local newspapers, membership solicitation at local events (election day for the Neighborhood Council) and direct solicitation to community groups by presentation and mailings. Currently nearly 250 individuals have joined with the expectation of increased interest and participation over the next several months.

3) Directors' Experience & Involvement in Community Service

The members of the North End/Waterfront Community Development Corporation, have had a broad range of community service starting with youth activities involving day camps, caddy camps, Pee Wee Baseball, Little League and Pony League they have formed basketball and hockey Leagues for the youth of the community.

We collectively have dealt with elderly groups which provide services and housing for older citizens. We have had experience in other forms of service which include all types of neighborhood services, with a strong association with the City of Boston officials.

The organizations which have been listed with our biographies show a strong concern for neighborhood problems. Many members have participated in a housing survey which identified the displacement of residents in our community and a definite need for low and moderate income housing.

4) Description of Community Support

Community outreach and involvement was achieved by sending letters and attending meetings of large non-profit organizations in the North End/Waterfront Neighborhood who have a proven track record of social service.

When learning of our mission to provide badly needed affordable housing, the response was enthusiastic. Ten organizations expressed a willingness to participate, and will be sending their representatives to serve on the Community Development Corporation's Board of Directors.

One of these groups, the Knights of Columbus, Ausonia Council #1513, has responded verbally. They are extremely interested in participating in the Community Development Corporation, to help provide needed affordable housing in the community.

C. NE/W CDC's 10-Year Development Plan for its Target Area

The following outlines the NE/W CDC's envisioned development plan to increase affordable housing opportunities within the North End/Waterfront community over the next decade, and how we anticipate carrying out our long-term goals and objectives which are outlined in our Mission Statement (Section II.A.2):

1. Approach for Increasing Affordable Housing Opportunities in North End/Waterfront Community

- The following streets should be re-extended so as to link the North End with downtown Boston, Government Center, and Beacon Hill. Housing (for a variety of income groups) should be constructed along both sides of these streets. This housing should be at the same scale as North End buildings for comparability with the character of the North End:
 - Endicott Street
 - Salem Street
 - Hanover Street
 - Cross Street

These re-extensions would also reduce the traffic congestion at the existing bottlenecks on these streets.

- Hanover Street should be re-extended to Congress Street.
- Establish bus routes along Hanover Street and Cross Street to link the North End with the downtown.

Non-profit Community Development Corp. to form

North End and Waterfront residents concerned about the development future of their community are forming a new organization which could actually take part in the development process.

This organization, called the North End/Waterfront Community Development Corporation, is a private, non-profit membership organization which is empowered to carry out development activities, such as building affordable housing, which provide a benefit to the community. This non-profit corporation can act as a developer on its own, or can co-develop a property in partnership with a private developer. The corporation's mission is to ensure that the development activities in which it takes part are in the best interest of the community, such as providing housing or needed jobs for low and moderate income households.

More than fifteen similar non-profit corporations are working within other Boston neighborhoods. The Fenway Community Development Corporation has developed Fensgate, a rehabilitated building cooperatively owned by the building's residents. The Jamaica Plain Neighborhood Development Corporation has renovated an abandoned brewery building which now houses more than 10 small businesses, creating over 60 jobs. The Tent City Community Development Corporation successfully developed affordable housing adjacent to Copley Place — a luxury shopping/hotel complex in Copley Square.

The Community Development Corporation gives our neighborhood a real opportunity to influence how and what development takes place here over the next ten years," said Bob Delo

Russo, chairperson for the organization's steering committee. "Unlike a committee with review powers only, the CDC can take part in future development projects such as the redevelopment of Central Artery land, or continued waterfront development."

From now until the middle of June, the steering committee formed to launch the North End/Waterfront CDC is conducting a membership drive for the new organization. Any resident of the North End and Waterfront who is over 18 years old may join. On Tuesday, June 27, members will meet to elect the majority of a Board of Directors for the new organization.

"Everyone in the community can and should join this organization," said Mary Ann D'Amato.

membership committee chairperson. "It is meant to be a way for existing community organizations and residents to work together to shape the course of development more effectively. It is not meant to be just one more

community group." Persons interested in joining the North End/Waterfront Community Development Corporation should complete and send in the following form to NE/W CDC, P.O. Box 117, Boston, MA 02113.

SAMPLE OUTREACH LETTER TO COMMUNITY ORGANIZATIONS

NORTH END WATERFRONT COMMUNITY DEVELOPMENT CORPORATION

P.O. BOX 117 • BOSTON, MA 02113

The following letter was sent to this list of organizations:

1. Knights of Columbus
2. North End/Waterfront Neighborhood Council
3. North End/West End Service Center
4. North End Union
5. North End Athletic Association
6. Boston Waterfront Association
7. North End Community Health Center/North End Nursing Home

9. Senior Citizens Association
10. North End Civic League

Dear _____:

We know you are deeply concerned about the dwindling supply of affordable housing units; that you wish to protect the elderly; that you wish to give our young people an opportunity to remain in the community where they were born; that you want to protect the character of our neighborhood; and that you want to stop the adverse effect on our community when three and four-generation families are forced to relocate.

The North End/Waterfront Community Development Corporation is being formed and everyone's participation is vitally needed to increase the dwindling supply of affordable housing in our neighborhood for the elderly, for families, for young people and for those unable to pay the upscale condo prices. The time has come for us to turn the tide and take control because this is our only chance to prevent affordable housing from becoming a thing of the past. We can no longer sit back and wait for someone else to solve our problems. We, the residents of the North End/Waterfront, must act NOW.

Membership in the North End/Waterfront Community Development is open to all residents 18 years and over. Its activities will be directed by a Board of Directors composed of neighborhood residents and representatives of various social service and community groups. Everyone has an important and vital role to play. Everyone will have an equal voice in the planning and decision making of our future.

In that light, we are asking your organization to become a permanent member of our Board of Directors by appointing a member of your organization to serve on the Board of Directors. Your organization has a proven track record for working on the issues, for caring for the community and for taking

a leadership role. We know your organization has been involved in these issues for years. We want your organization to sit as a permanent member of the Board of Directors of the CDC to guide this effort. Please let us know by June 7 as to who will represent your organization on our Board of Directors.

Our message is simple. Please help, please become involved, please work with your neighbors and, above all, let us take that first giant step in letting it be known THAT IN THE NORTH END, WE TAKE CARE OF OUR OWN.

Sincerely yours,

Robert DelloRusso

APPENDIX H

LETTERS OF COMMUNITY SUPPORT

NORTH END SENIORS

Nazzaro Center
30 North Bennet Street
Boston, Massachusetts 02113
Telephone: 523-8045

June 2, 1989

Mr. Robert Dello Russo, President
North End/Waterfront Community Development Corporation
24 Fleet Street
Boston, Massachusetts 02113

Dear Mr. Dello Russo:

In response to your recent letter inviting our organization to become a member of the Board of Directors of the CDC, I am happy to report that our organization VOTED UNANIMOUSLY IN FAVOR of becoming a member of the governing body of this CDC.

Our organization is only too familiar with the dwindling supply of affordable housing in our neighborhood. Many of our members have been displaced by the rising rents and they know only too well that their children and grandchildren have had to leave the neighborhood where they were born. Not only have their children been deprived of a chance to stay in the neighborhood, but many of our members no longer have their loved ones around them to help with food shopping, to take care of them when they become ill and to provide the extended family which is so beneficial to their well being.

We congratulate you for working towards this common goal and we are honored that you have given us, in our lifetime, the opportunity to be a part of a unified community-based organization: I shall be the representative to your organization for the North End Seniors and, in my absence, Mrs. Theresa Palermo, Vice President will be the representative.

Sincerely yours,

Josephine Zizza
President

**NORTH END/WEST END
NEIGHBORHOOD SERVICE CENTER**

June 1, 1989

Mr. Robert Dello Russo
Chairman, Steering Committee
North End/Waterfront Community Development Corporation
P. O. Box 117
Boston, Massachusetts 02113

Dear Mr. Dello Russo:

In reply to your letter dated May 24, 1989 asking the North End/West End Neighborhood Service Center to become a permanent member of your Board of Directors, the Advisory Board and Administration of this organization would like to give their full support to this cause.

We as a non profit organization, having serviced the low and moderate income people of these communities for over 25 years, have always been committed to helping the residents by protecting their rights and advocating for them on issues regarding affordable housing and in trying to secure for each person, young and old, a rightful place within their own neighborhood. We would like to also protect the character of this neighborhood; and stop the adverse effect of this community.

The North End/West End NSC and its Advisory Board, accept your request and will appoint a member of this organization to serve on the Board of Directors of the CDC.

The bilingual staff of this organization is actively advocating for this cause by distributing membership applications to as many residents as possible in order to ensure strong support.

For your information, we would like to advise the CDC that we have recently hired Nina Kallen, a housing specialist, to handle these housing related problems.

If we can be of further help to your organization please feel free to contact us at 523-8125.

Sincerely,

Lia Tota
Executive Director
for The North End/West End NSC
Advisory Board

NORTH END CIVIC LEAGUE
460 Commercial St.
Boston, MA. 02113

Robert Dello Russo, Chairman.
North End/Waterfront Community Development Corporation.
P.O. Box 117
Boston, MA. 02113

Dear Mr. Chairman:

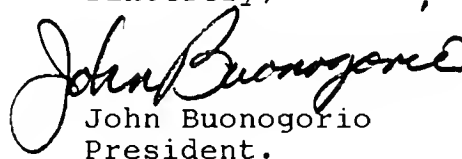

The North End Civic League is honored to participate as a permanent member of your board of directors.

We have strived, since 1930 to be a unified voice, representing the people of the North End community. The Civic League has been involved with many issues concerning our community and for years affordable housing for our residents has been a priority.

Our organization is willing to participate and become an active force to promote and maintain affordable housing in our community. We support the goals of the CDC and our organization will be at your disposal any assistance you need.

Again we are proud to be a part of the CDC and working together we can combat the need for affordable housing in our area.

Sincerely,

John Buonogorio
President.

North End / Waterfront Neighborhood Council

June 6, 1989

Mr. Robert DelloRusso, President
North End/Waterfront Community Development Corporation
24 Fleet Street
Boston, Massachusetts 02113

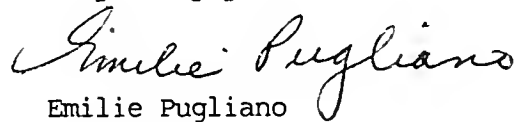

Dear Mr. DelloRusso:

In response to your recent letter inviting the Council to become a member of your Board of Directors, please be advised that we **VOTED UNANIMOUSLY** to join you in this effort to bring about affordable housing in our community.

There was a great deal of interest in your goals and we were quite impressed with your presentation. We feel the CDC can become an extension of, and bring to fruition, the work we have begun in building a strong and cohesive neighborhood and that such a mechanism, when in place, will have long range and positive ramifications for the future.

YOUR GOALS AND MISSION ARE OUR GOALS AND MISSION; therefore, we are interested and willing to work with you.

Very truly yours,

Emilie Pugliano
President

North End/Waterfront Community Development Corporation.
Robert J. Dello Russo, Chairman.

Boston, MA. 02113

Dear Mr. Dello Russo:

The North End Athletic Association received your invitation to participate as a permanent member of the Board of Directors to the C.D.C.

The N.E.A.A. for years has concerned itself with the youth of the area, organizing programs to motivate young people and grooming them to become better citizens. The last decade has made a severe impact in our programs because of the lack of affordable housing for our residents causing many of them to leave the area and raise families outside the North End.

Our experience has shown that the lack of affordable housing is the major cause of this flight from the neighborhood, which is the reason for our dwindling numbers.

Participating in a cause that would allow our young people to live and raise a family is one that we would wish to promote, expand and continue.

Please accept our full support for this worthwhile endeavor, I hope to hear from you soon.

Sincerely,

A handwritten signature in cursive script that reads "Dominic Campochiaro". The signature is written in dark ink and is positioned above the printed name and title.
